Subject: Offer of Employment — NSF Specialist

Dear {First Name},

Congratulations. Following the successful completion of your probationary period, we are pleased to formally offer you the position of NSF Specialist at Dial Expert Solutions.

Your performance during probation demonstrated the qualities we look for on the NSF team — attention to detail, focus, and the discipline to verify every fix before submitting it. We're proud to have you continue with us in this role.

ROLE DETAILS

Position:	NSF Specialist
Department:	NSF / First Line
Reports to:	NSF Team Lead
Schedule:	Sunday – Saturday (2 Saturdays per month minimum required)
Effective Date:	{Start Date}

COMPENSATION STRUCTURE

#	COMPONENT	NOTES	AMOUNT
1	Base Salary	Monthly floor pay	18,000 EGP
2	Per Verified NSF Fix	File returned to ACTIVE status (QA-verified)	50 EGP / fix
3	Per Cancellation Retain	Cancel intent handled live, no retention transfer	200 EGP / each
4	Volume Tier Bonus	Highest tier paid — not cumulative	Up to +6,000 EGP
5	Saturday Bonus	Min 2 required. Miss min = forfeit + HR notice	1,000 EGP / Sat
6	QA & Adherence Bonus	QA-verified fixes, tonality, call flow, protocol	+2,000 EGP
7	QA & Adherence Penalty	Slacking, poor QA, sloppy fixes, protocol skipping	–4,000 EGP

VOLUME TIER BONUS BREAKDOWN — Component #4

FIXES REACHED	TOTAL MONTHLY BONUS
160 verified fixes / month	+2,000 EGP
200 verified fixes / month	+4,000 EGP
240+ verified fixes / month	+6,000 EGP

MINIMUM PERFORMANCE THRESHOLD

Less than 100 verified fixes/month = removal from the NSF line + forfeit of ALL per-fix commissions, retain commissions, QA bonus, and tier bonus for that month.

REALISTIC MONTHLY EARNINGS

Earning ranges at different performance levels (assuming 2 Saturdays worked):

TIER	REQUIREMENTS	MONTHLY TOTAL
Below threshold	Under 100 fixes — REMOVED from line	—
Floor	100–159 fixes, clean QA & adherence	~27,000–30,000 EGP
Solid	160–199 fixes, clean QA & adherence	~32,000–34,000 EGP
Strong	200–239 fixes, clean QA & adherence	~36,000–38,000 EGP
Top	240+ fixes, clean QA & adherence	~40,000+ EGP

PERFORMANCE EXPECTATIONS

- Minimum 100 verified NSF fixes per month — absolute floor to remain on the line.
- Target 6+ verified fixes per day across 20–22 working days (~120–160+/month).
- Every fix must result in the customer's file returning to ACTIVE status — not just a rescheduled date that doesn't reactivate.
- Maintain clean tonality, call flow, and protocol adherence on every call (QA-reviewed).
- Maintain live pickup — calls answered when not on break or active call.
- All fixes tagged in CRM at the time of the call for QA verification.

OTHER TERMS

- Employment is on standard terms as outlined in the Dial Expert employee handbook.
- Compensation structure is subject to review every 6 months based on company performance and operational needs.
- Manipulated or fraudulent fix submissions will be reversed. Repeated occurrences may result in disciplinary action up to and including termination.
- Confidentiality of customer data, scripts, and internal systems is required at all times during and after employment.

ACCEPTANCE

By signing below, you accept this offer of employment as an NSF Specialist at Dial Expert Solutions under the terms outlined in this document.

Misadherence & Deductions

The following consequences apply when behavior or performance falls outside the standards described in this offer. These are deducted from the variable pay components in the month they occur.

Unapproved Workday Absence

STANDARD

Trigger: Missing a scheduled work day for any unapproved or unverified reason.

Consequence: **Double deduction (2x daily pay).**

Unapproved Saturday Absence

STANDARD

Trigger: Missing a required Saturday for any unapproved or unverified reason.

Consequence: **Double deduction (2x daily pay).**

Live Call Avoidance

SERIOUS

Trigger: Verified pattern of not picking up live calls while available (not on break, not on an active call).

Consequence: **500 EGP deduction per verified case + forfeit of the QA & Adherence Bonus for the month.**

Fake Fix or Cancellation Retain Submission

CRITICAL

Trigger: Submitting a fix or retain that wasn't actually agreed to by the customer, wasn't verified to return the file to ACTIVE, or where the customer wasn't truly retained.

Consequence: **Forfeit of ALL commissions earned for the entire month. Repeated violations may lead to termination.**

What Counts As A Valid NSF Fix

An NSF fix is only counted toward your commission and tier bonus when it meets ALL of the criteria below. QA reviews these criteria before payout. Any fix falling short is reversed.

**Customer agreed to the fix on the call**

The customer clearly consented to the new payment date, banking update, or other corrective action live on the call. No assumptions, no implied agreement.

**File returned to ACTIVE status**

The fix must result in the customer's file being restored to active billing/program status — not just a rescheduled date that doesn't reactivate the file.

**New arrangement is set up correctly**

Payment date, banking information, or other corrected details are entered accurately in the CRM and confirmed back to the customer.

**Customer committed to the next payment**

Customer confirms they will make their next scheduled payment under the new arrangement. No vague hesitation.

**Call recording shows real agreement**

QA can verify the agreement on the call recording. Vague responses, silence, or pressured agreement do not count.

CANCELLATION RETAIN — WHAT COUNTS

A cancellation retain counts when: (1) customer expressed real cancel intent live on the call, (2) you handled it without transferring to retention, (3) customer wants to continue, (4) customer committed to the next payment, (5) customer leaves satisfied. QA-verified. Any retain falling short is reversed.

**A fix or retain isn't a tag in the system.
It's a real outcome — because of YOU.**
