Solid performance	155 saves, clean behavior	~74,000 EGP
Top performance	185 saves, clean behavior	~84,000 EGP
Elite performance	210+ saves, clean behavior	~93,000+ EGP

PERFORMANCE EXPECTATIONS

- Minimum 5 verified retains per day across 20–22 working days per month (approximately 110 saves/month).
- Maintain live pickup — calls answered when not on break or active call.
- Email cancel requests dialed back live per the task pending protocol.
- Sheet cancels worked during idle time per protocol.
- All IDP soft saves tagged in CRM at the time of the call for QA verification.

OTHER TERMS

- Employment is on standard terms as outlined in the Dial Expert employee handbook.
- Compensation structure is subject to review every 6 months based on company performance and operational needs.
- Manipulated or fraudulent saves will be reversed. Repeated occurrences may result in disciplinary action up to and including termination.
- Confidentiality of customer data, scripts, and internal systems is required at all times during and after employment.

Misadherence & Deductions

The following consequences apply when behavior or performance falls outside the standards described in this offer. These are deducted from the variable pay components in the month they occur.

Unapproved Workday Absence

STANDARD

Trigger: Missing a scheduled work day for any unapproved or unverified reason.

Consequence: **Double deduction (2x daily pay).**

Unapproved Saturday Absence

STANDARD

Trigger: Missing a required Saturday for any unapproved or unverified reason.

Consequence: **Double deduction (2x daily pay).**

Live Call Avoidance

SERIOUS

Trigger: Verified pattern of not picking up live calls while available (not on break, not on an active call).

Consequence: **500 EGP deduction per verified case + forfeit of the Behavior Bonus for the month.**

Retain Manipulation

CRITICAL

Trigger: Submitting a live IDP as a retained save when the customer was not clearly expressing intent to cancel.

Consequence: **Forfeit of ALL commissions earned for the entire month.**

What Counts As A Valid Retain

A retain is only counted toward your commission and tier bonus when it meets ALL of the criteria below. QA reviews these criteria before payout. Any retain falling short is reversed.

**Cancel intent on the call**

Customer came in clearly wanting to cancel — whether through a formal Aspire Cancellation Request, or as an IDP / active customer expressing real cancel intent live on the call.

**Wants to continue in the program**

By the end of the call, the customer is committed to staying enrolled and continuing forward with the program.

**Committed to the next payment**

Customer confirms they will make their next scheduled payment as planned. No vague hesitation.

**Retention form signed (when required)**

If the customer type or program rules require a retention form, it is signed and submitted before the call ends.

**Customer leaves satisfied and happy**

The resolution genuinely addresses the customer's concern. They are not pressured, talked over, or rushed off the line. They leave the call feeling heard and supported.

A retain isn't a tag in the system.

It's a customer who came in to cancel — and stayed because of YOU.

That's the bar. That's what we pay for.
